

Data. Changes. Everything.

From the moment our day begins, data proliferates the decisions we make. From how we travel, to the products we purchase, how we learn and how we care for this world.

There has never been a better time than now to manage, analyze, and use data — the Teradata PARTNERS Conference 2016. Together, the world's most respected brands, business leaders, practitioners and visionaries from across the globe set the course for one week of inspiration, insight and networking with one simple goal; propel business, life and humanity forward, for the better... Join us!

Nine out of ten attendees state that PARTNERS was the most valuable conference they attended in the last 12 months.

WHY YOU SHOULD ATTEND:

80 percent of the sessions are selected by customers and presented by real practitioners and business experts.

More than 200 breakout sessions, hands-on workshops, roundtables and discussion forums represent a tremendous breadth of content.

On average, two-thirds of the companies attending send a team — four or more associates — and 95 percent say that their time was well spent.

WHAT YOU'LL DISCOVER

- Big Data Architecture
- Consumer and Social Analytics
- Cybersecurity, Privacy, and Governance

- Students

GEORGIA WORLD CONGRESS CENTER
September 11-15, 2016

"I have always felt that PARTNERS had the best combination of breadth and detail. It was important for me when I was a technologist to go with my business partners. And now that I'm on the business side, it's important to be there with my technology partners so that we can learn together."

Associate Vice President, Customer Insights and Analytics, Nationwide Insurance

THE PREMIER CUSTOMER-LED DATA CONFERENCE

Join 6,000 of the most advanced and innovative data and analytics experts representing a variety of roles. For five solid days attendees share, learn and discover what's new and what's next in the world of data. And how it can change everything.
